

In this application, claims 1-7 are currently pending. Claims 1-3 are amended by this Response. Claims 4-7 have been added. Entry of these amendments is respectfully requested.

Rejection for Double Patenting (obviousness type)

The Examiner has rejected claims 1-3 for double patenting of the obviousness type. Kindly reconsider the rejection in light of the arguments expressed herein, and if made final applicant will file a terminal disclaimer to remove the rejection.

New Claims:

Claims 4 - 7 are new claims relating to the same subject matter as examined claims 1-3 and these claims are supported by the Specification as originally filed.

Argument

The variations in structure set forth in the claims presented with this amendment are outside the ordinary skill in the art. The display of data on the combined display depicted in Fig. 7 is not an obvious combination.

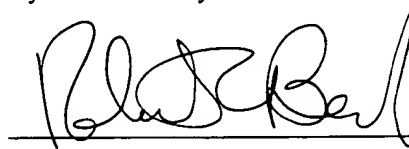

CONCLUSION

All of the claims remaining in this application should now be seen to be in condition for allowance. The prompt issuance of a notice to that effect is solicited.

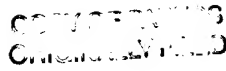

Respectfully submitted,
ENDOCARDIAL SOLUTIONS, INC.
